

Roseburg High School Robotics
400 W Harvard Ave.
Roseburg, OR 97471
Mr. Wier: (541) 440-4142

Dear potential associates,

We are the Roseburg High School Robotics Club - a student-run organization whose main goal is to inform our community about robotics and spread the word about what we do, and inspire our peers to pursue careers in STEM.

This club started in 2017 as a group of high-schoolers building robots and programming them to do certain obstacles for fun. As the months went on, the club began to grow and compete against other teams in local competitions. As of 2019, the club has 30 members split among three teams.

This year, the goal is to raise \$300 per person, or \$3000 per team. This may seem like a lot, but with competition fees and robot parts, the fees start to add up.

If you have any questions or comments, please call 541-315-4353, check us out on our Facebook page <https://www.facebook.com/RoseburgHighSchoolRobotics>, or email us at rhsariesrobotics@gmail.com. Your help would be appreciated.

Thank you for your time, and we hope that you will help us achieve our goals this year.

Sincerely,
RHS Robotics Club
